## Check It Out Before You Plunk Your Money Down

Looking for good ways to save money, ways that will not reduce your standard of living nor deprive you of the things that you really enjoy?

Who isn't?

Well, if books, videos, audio books and CDs are some of your favorite things, the \_\_\_\_\_ (library) is ready to be your friend in need. \_\_\_\_\_ (library) regularly stocks the best of the latest books and other entertainment formats, as well as the best of the classics and popular long-time favorites in those media.

At \_\_\_\_\_ (library), you can check your selections out for free and take them home to read or listen to before you decide whether you want to own them. You can always buy these items, but no other establishment in town can offer you such a convenient and cost-free trial period.

Saving money by borrowing books and CDs before you buy them is Reason #33 in our list of 65 *Reasons to Love Your Library*. Visit the library to read the rest of the list prominently displayed on a big poster in \_\_\_\_\_ (location in the library). While you're there, add your own reasons to the list. And don't forget to pick up the new books and CDs you want to try.

For more information about the collections and services of \_\_\_\_\_, call \_\_\_\_\_, log on to \_\_\_\_\_ or drop in at \_\_\_\_\_.
