

Step 1: Pull off and cut off 4 strips of duct tape (approx. 6 inches each). Overlap them slightly to make a square (or rectangle). Teens can use 2 different patterns, if they wish.

Step 2: Rip more strips of about the same length and putting sticky sides together, line up the pieces of duct tape. When you are finished, you should have one big rectangle or square that is not sticky and is patterned on both sides.

Step 3: Trim the edges and make sure everything is lined up and not sticky.

Step 4: Use sharpies or other pieces of duct tape to decorate the square. You can line the top and bottom of the square with a different color or pattern of duct tape.

Step 5: Use another piece of duct tape to make a strip to be a belt for your dress.

Step 6: Put decorated square around the Barbie and tie it on with the belt.
