Kilgore College	No fee				10¢ B&W; 25¢ color	Yes - PaperCut (campus-wide)	<u>Printing</u> - All of our printing and copy expenses are paid for by the funds generated by the printing and copy money collected. Funds received go into our Friends of the Library account and all maintenance fees for printers and copiers, print charges and paper are paid for from that rather than the regular college budget.

South Plains College	No fee				\$3 per week is "free". After that they can add to their account in \$5 increments. Weekly amount is not carried over. Purchased amount in carried over. (Color not available.)	Yes - Paper Cut (campus-wide)	The prepaid is great because it eliminates our handling the cash. Using a weekly amount (they get \$3 of printing a week at 5 cents a page free) is not particularly fair to some of our students as they have to do a lot of printing all at once (first week or near the end of the semester) but do not have much need the rest of the semester. They have to pay for a bunch of printing and have most of their free printing go to waste. The \$3 per week does not carry over. At midnight Saturday all unused goes away. The extra they buy does not get erased.

Weatherford College **NO SURVEY RESPONSE IN 2016**	No fee				10¢ B&W; 15¢ color	Yes - PaperCut (campus-wide)	<u>Printing</u> - At the moment, students must come to the Circulation Desk where a library employee verifies the number of pages in the print job(s), releases the job(s), and takes the money. We are working with IT and our Business Office to fully implement PaperCut so that students login at a large multi-function printer, see their print job(s) and do the release themselves. Our Business Office wants to minimize the amount of cash handling on campus, and I am looking forward to removing that liability from my staff.
